| <b>Management Discussion and Analysis</b> |      |
|---|------|
| As of and for the Year Ended              | , 20 |

[The basic financial statements should be preceded by management's discussion and analysis (MD&A), which is required supplementary information (RSI). MD&A should provide an objective and easily readable analysis of the government's financial activities based on currently known facts, decisions, or conditions. (GASB Statement 34, ¶8)

MD&A should discuss the current-year results in comparison with the prior year, with emphasis on the current year. This fact-based analysis should discuss the positive and negative aspects of the comparison with the prior year. The use of charts, graphs, and tables is encouraged to enhance the understandability of the information. (GASB Statement 34, ¶9)

MD&A requirements established by GASB Statement 34, ¶11 (a) through (h) are discussed in general rather than specific terms to encourage financial managers to effectively report only the most relevant information and to avoid "boiler-plate" discussion. The information presented should be confined to the topics discussed. Governments can provide additional details about the required topics in (a) through (h). Information that does not relate to the required topics should not be included in MD&A, but may be provided elsewhere, such as in the letter of transmittal or in other forms of supplementary information. (GASB Statement 37, ¶4)

In the first period that this Statement is applied, governments are not required to restate prior periods for purposes of providing the comparative data for MD&A as required in paragraph 11. However, governments are encouraged to provide comparative analyses of key elements of total governmental funds and total enterprise funds in MD&A for that period. Also in the first year of implementation, MD&A should include a statement that, in future years, when prior-year information is available, a comparative analysis of government-wide data will be presented. (GASB Statement 34, ¶145)]

#### INTRODUCTION

(Provide a brief description of the political subdivisions, legal substance, and services provided.

- 1. How the entity was created, including making reference to the specific Louisiana Revised Statutes, charter, etc., if applicable.
- 2. The purpose of the political subdivision.
- 3. Number of board members, how appointed, and whether they are compensated.
- 4. Geographic location and size of the entity.
- 5. The population served.
- 6. Number of employees.
- Quantitative information about the entity's operations (number of utility customers, approximate number of miles/acreage of drainage maintained, etc.).

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the (name of the political subdivision) is considered a component unit of (name of primary government). As a component unit, the accompanying financial statements are included within the reporting of the primary government, either blended into those financial statements or separately reported as discrete component units.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the (name of the political subdivision). For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meetings the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. All individual governmental funds and individual enterprise funds are reported as separate columns in the fund financial statements.

#### B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The (name of the political subdivision) reports the following governmental funds:

The General Fund is the entity's primary operating fund. It accounts for all financial resources of the enity, except those required to be accounted for in another fund

(Describe other governmental funds.)

The (name of the political subdivision) reports the following proprietary funds:

(Describe each proprietary fund.)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. (Describe the principal operating revenues of the proprietary funds.) Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the entity's policy to use restricted resources first, then unrestricted resources as they are needed.

#### C. Deposits and Investments

The entity's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the (name of the political subdivision)'s investment policy allow the entity to invest in collateralized certificates of deposits, government back securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities.

Investments for the (name of the political subdivision are reported at fair value. The state investment pool (LAMP) operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

#### D. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources

All trade and property tax receivables are show net of an allowance for uncollectives. (Describe the entity's policy in establishing uncollectible allowances.)

Property taxes are levied on a calendar year basis and become due on January 1 of each year. The following is a summary of authorized and levied ad valorem taxes:

|   | Authorized<br>Millage | Levied<br>Millage | Expiration<br>Date |
|---|-----------------------|-------------------|--------------------|
| Taxes due for:  |                       |                   |                    |
|   |                       |                   |                    |
| - Additional Control of the Control |                       |                   | -                  |
| Principal and interest  |                       |                   |                    |

The following are the principal taxpayers and related property tax revenue for the entity: [include those taxpayers whose percentage of total assessed valuation is 5% and greater]

| Taxpayer | Type of Business | Assessed<br>Valuation | % of Total<br>Assessed<br>Valuation | Ad Valorem Tax<br>Revenue for<br>Municipality |
|----------|------------------|-----------------------|-------------------------------------|---|
|          |                  | \$                    | %                                   | \$  |
|          |                  |                       | <u> </u>                            |   |
|          |                  |                       | - <del>//</del> %                   |   |
|          |                  |                       | <u>%</u>                            |   |
|          |                  |                       | <u>%</u>                            |   |
| Total    |                  | \$                    | %                                   | \$  |

Sales Taxes (Detail any sales taxes received by the entity, the rate, purpose, expiration date, et cetera.)

#### E. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out method. Inventories of the governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### F. Restricted Assets

(Describe the restrictions placed on any assets.)

#### G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost (the extent to which fixed asset costs have been estimated and the methods of estimation should be disclosed) if historical cost is not available (or describe other method of valuation). Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The (name of the political subdivision) maintains a threshold level of \$\_\_\_\_\_ or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense included during the current fiscal year was \$\_\_\_\_\_. Of this amount, \$\_\_\_\_ was included as part of the cost of capital assets under construction in connection with \_\_\_\_\_\_ construction projects.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

| Description                         | Estimated<br>Lives |
|-------------------------------------|--------------------|
| Infrastructure assets               | years              |
| Land improvements                   | years              |
| Buildings and building improvements | years              |
| Furniture and fixtures              | years              |
| Vehicles                            | years              |
| Equipment                           | years              |

#### H. Compensated Absences

The (name of the political subdivision) has the following policy relating to vacation and sick leave:

(Describe the entity's leave policies.)

The (name of the political subdivision)'s recognition and measurement criteria for compensated absences follows:

[GASB Statement No. 16 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of the following conditions are met:

- 1. The employees' rights to receive compensation are attributable to services already rendered.
- 2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

GASB Statement No. 16 provides that a liability for sick leave should be accrued using one of the following termination approaches:

- 1. An accrual for earned sick leave should be made only to the extent it is probable that the benefits will result in termination payments, rather than be taken as absences due to illness or other contingencies, such as medical appointments and funerals.
- 2. Alternatively, a governmental entity should estimate its accrued sick leave liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

#### I. Long-Term Obligations

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bon premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### J. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### K. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the (name of the political subdivision), which are either unusual in nature or infrequent in occurrence.

#### L. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

#### M. Reconciliations of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets The following reconciles the fund balances of governmental funds to the government-wide statement of net assets.

| Bond-related adjustments   |  |  |            |
|--|--|--|------------|
| Accrued interest payable   |  |  |            |
| Capital leases payable   |  |  |            |
| Claims and judgments   |  |  |            |
| Compensated absences   |  |  |            |
|  |  | 1051 11751 11751                       |            |
| Net adjustment   |  |  |            |
| Explanation of certain differences between the and the government-wide statement of activition the changes in net assets of governmental activities. | es The following reconciles the net char | nges in fund balance-total governmenta | I funds to |

| Net adjustment   |  |  |            |

#### 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGET INFORMATION The (name of the political subdivision) uses the following budget practices:

This space should be used to describe the entity's budget practices. The comments should include the following:

- The budgetary calendar (specific dates or time frame for (a) when the budget is published in the official journal and made available for public inspection; (b) when the public hearing for the proposed budget was held; and (c) when the budget was adopted.)
- 2. Whether or not appropriations (unexpended budget balances) lapse at year-end.
- 3. Procedures relative to outstanding encumbrances.
- 4. Basis of preparing and reporting the budgets and those funds not budgeted.
- 5. The level of administrative authority to make changes or amendments within the various budget classifications. Also, disclose if amendments have been made to the original budget and if all amendments are reflected in the budget comparison.

There should be a reconciliation of any non-GAAP budget amounts shown in the financial statements, using the excess of revenues and other sources over expenditures and other uses as the basis of the reconciliation.]

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the entity that the fiscal agent has failed to pay deposited funds upon demand.

#### **INVESTMENTS**

Investments are categorized into these three categories of credit risk:

- Insured or registered, or securities held by the entity or its agent in the entity's name
- Uninsured and unregistered, with securities held by the counter party's trust department or agent in the entity's name 2.
- Uninsured and unregistered, with securities held by the counter party, or by its trust department or agent but not in the entity's 3. name

At fiscal year-end, the (name of the political subdivision)'s investment balances were as follows:

|                            |    |        |    |       | Carrying Amo | ount | Total    |

|                             | <u></u>         |      |      |      |      |             |
| Total                       |                 | \$   | \$   | \$   | \$   | \$          |

(There should be a discussion of bad debt accounting and write-off policy. Also, significant receivable balances not expected to be collected within one year of the date of the financial statements should be disclosed.)

#### 6. INTERFUND RECEIVABLES/PAYABLES

[GASB Statement No. 38 requires the following details to be disclosed for interfund balances reported in the fund financial statements:

- Amounts due from other funds by individual major fund, nonmajor governmental funds in the aggregate, nonmajor enterprise funds in the aggregate, internal service funds in the aggregate, and fiduciary fund type
- b. The purpose for interfund balances
- c. Interfund balances that are not expected to be repaid within one year from the date of the financial statements.]

#### 11. SHORT-TERM DEBT

(GASB Statement No. 38 requires details about short-term debt activity during the year, even if no short-term debt is outstanding at year-end. Short-term debt results from borrowings characterized by anticipation notes, use of lines of credit, and similar loans. Details should include:

- a. A schedule of changes in short-term debt, disclosing beginning and end-of-year balances, increases, and decreases
- b. The purpose for which the short-term debt was issued.)

#### 12. LEASES

Type

interest

Present value of net minimum lease payments

The (name of the political subdivision) records (does not record) items under capital leases as an asset and an obligation in the accompanying financial statements. The following is an analysis of capital leases:

Recorded Amount

| Buildings<br>Equipment   |  |                   | \$           |   |
|--|--|-------------------|--------------|---|
| Other  |  |                   |              |   |
| Total  |  |                   | \$           |   |
| The following is a schedule of future minimum lease payments, as of, 20: | nents under capital leases,            | together with the | e present va | ue of the net                           |

- Authority under which the obligations to contribute to the plan of the plan members, employer(s), and other contributing
  entities are established or may be amended.
- Required contribution rate(s) of active plan members.
- Required contribution rate(s) of the employer in accordance with the funding policy, in dollars or as a percentage of currentyear covered payroll. Disclose the required contributions in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.]

#### 15. OTHER POSTEMPLOYMENT BENEFITS

[GASB Statement No. 12 requires, as a minimum, the following disclosures if the entity provides other postemployment benefits (OPEB). The disclosures may be made separately for one or more types of benefits or in the aggregate for all OPEB provided.

- A. A description of the OPEB provided, employee groups covered, eligibility requirements, and the employer and participant obligations to contribute, quantified in some manner (for example, the approximate percentage of the total obligation to contribute that is borne by the employer and the participants, respectively, or the dollar or percentage contribution rates).
- B. A description of the statutory, contractual, or other authority under which OPEB provisions and obligations to contribute are established.
- C. A description of the accounting and financing or funding policies followed. For example, a statement that the employer's contributions are financed on a pay-as-you-go basis or are advance-funded on an actuarially determined basis. If OPEB are advance-funded on an actuarially determined basis, the employer should also disclose the actuarial cost method and significant actuarial assumptions (including the interest rate and, if applicable, the projected salary increase assumption and the health inflation assumption) used to determine funding requirements, and the method used to value plan assets.
- D. The following expenditure/expense information, depending on how OPEB are financed:
  - (1) If OPEB are financed on a pay-as-you-go basis, the amount of OPEB expenditures/expenses recognized during the period by the employer (net of participant contributions); also, disclose the number of participants currently eligible to receive benefits. If expenditures/expenses for OPEB cannot readily be separated from expenditures/expenses for similar types of benefits provided to active employees and their dependents, employers should use reasonable methods to approximate OPEB expenditures/expenses. If a reasonable approximation cannot be made, employers should state that OPEB expenditures/expenses cannot be reasonably estimated.
  - (2) If OPEB are advance-funded on an actuarially determined basis, the number of active plan participants, the employer's actuarially required and actual contributions for the period (net of contributions), the amount of net assets available for OPEB, and the actuarial accrued liability and unfunded actuarial accrued liability for OPEB according to the actuarial cost method in use.
- E. A description (and the dollar effect, if measurable) of any significant matters that affect the comparability of the disclosures with those for the previous period (for example, a change in benefit provisions).
- F. Any additional information that the employer believes will help users assess the nature and magnitude of the cost of the employer's commitment to provide OPEB.]

#### 16. RESERVED AND DESIGNATED RETAINED EARNINGS/FUND BALANCES

(Detail any reserves or designations appearing on the Statement of Net Assets or Balance Sheet.)

#### 17. SEGMENT INFORMATION

(A reporting government should disclose any segment information for any of its, multiple, enterprise funds.)

#### 18. FEDERAL COMPLIANCE CONTINGENCIES

(Include all federal contingencies with an explanation of questioned or disallowed costs.)

#### 19. RELATED PARTY TRANSACTIONS

(FASB 57 requires the disclosure of the description of the relationship, the transactions, the dollar amount of the transactions, and any amounts due to or from that result from related party transactions. List all related party transactions.)

#### 20. RISK MANAGEMENT

| [The following information | ı should be | disclosed. | ifa | applicable | e: |
|----------------------------|-------------|------------|-----|------------|----|
|----------------------------|-------------|------------|-----|------------|----|

- 1. A description of the risks of loss to which the \_\_\_\_\_\_ is exposed and the way(s) in which those risks of loss are handled (for example, purchase of commercial insurance, participation in a public entity risk pool, risk retention).
- 2. A description of significant reductions in insurance coverage from coverage in the prior year by major categories of risk. Also indicate whether the amount of settlements exceeded insurance coverage for each of the past three fiscal years.
- 3. If the \_\_\_\_\_\_ participates in a risk pool, a description of the nature of the participation, including the rights and the responsibilities of both the entity and the pool.
- 4. If the \_\_\_\_\_ retains the risk of loss:
  - The basis for estimating the liabilities for unpaid claims, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, and subrogation, and whether other allocated or unallocated claim adjustment expenditures/expenses are included.
  - The carrying amount of liabilities for unpaid claims that are presented at present value in the financial statements and the range of discount rates used to discount those liabilities.
  - The aggregate outstanding amount of claims liabilities for which annuity contracts have been purchased in the claimants' names and for which the related liabilities have been removed from the balance sheet. (Annuity contracts used to settle claims for which the claimant has signed an agreement releasing the entity from further obligation and for which the likelihood that the pool will be required to make future payments on those claims is remote should not be included in this disclosure.)
  - A reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year, in the following tabular format:
  - Amount of claims liabilities at the beginning of each fiscal year.
  - Incurred claims, representing the total of a provision for events of the current fiscal year and any change (increase or decrease) in the provision for events of prior fiscal years.
  - Payments of claims attributable to events of both the current fiscal year and prior fiscal years.
  - Other. (Provide an explanation of each material item.)
  - Amount of claims liabilities at the end of each fiscal year.

For additional information and example note disclosures, refer to GASB Codification Section C50.)

#### 21. CONTINGENT LIABILITIES

At \_\_\_\_\_, 20\_\_\_, the (name of the political subdivision) is involved in \_\_\_\_\_ lawsuits or is aware of claims totaling \$\_\_\_\_\_, which are not covered by insurance. Of this amount, \$\_\_\_\_\_ has been recorded as a liability. The ultimate resolution of the remaining amount would not materially affect the financial statements in the estimation of the legal advisor for the (name of the political subdivision) (or the legal advisor is unable to estimate the ultimate resolution of such matters).

#### 22. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

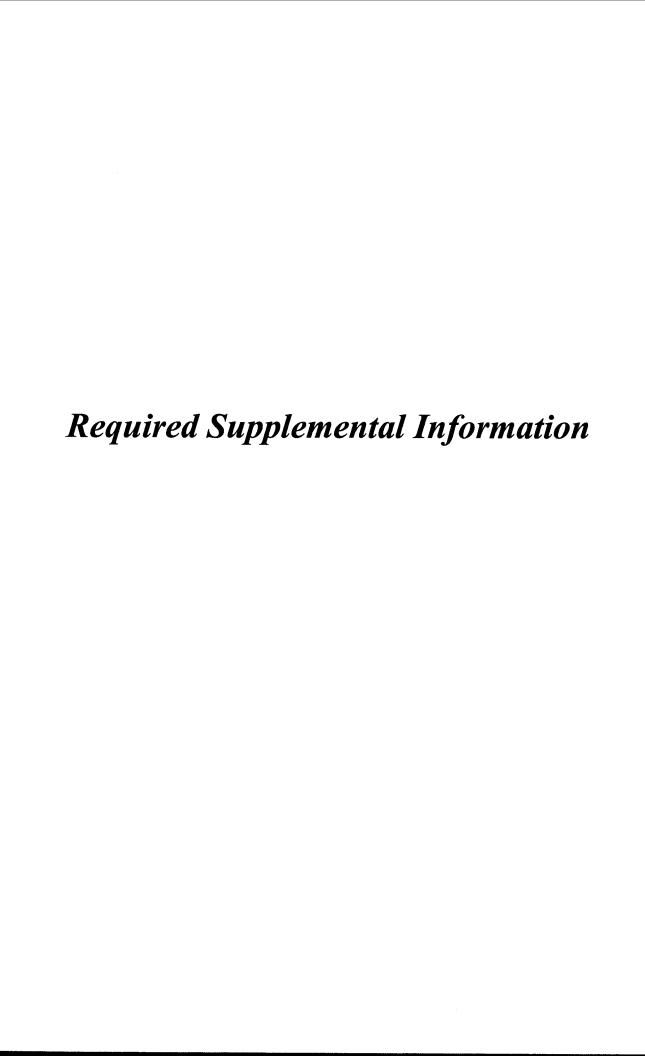

(Note to the preparer of the financial statements: GASB Statement 24 requires that on-behalf payments for fringe benefits and salaries be recognized as revenue and expenditures or expenses and that the notes to the financial statements disclose the amounts recognized. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends. You should refer to GASB Statement 24 for guidance relating to the recognition and measurement of onbehalf payments for fringe benefits and salaries.)

#### 23. JOINTLY GOVERNED ORGANIZATIONS

(A reporting government should disclose jointly operated entities. In addition, the entity should disclose any material cooperative endeavor agreements.

#### 24. SUBSEQUENT EVENTS

(A reporting government should disclose any material event affecting it that occurs between the close of the fiscal period and issuance of the financial statements.)

| The accompanying notes are an integral part of this schedule |                            |                         |

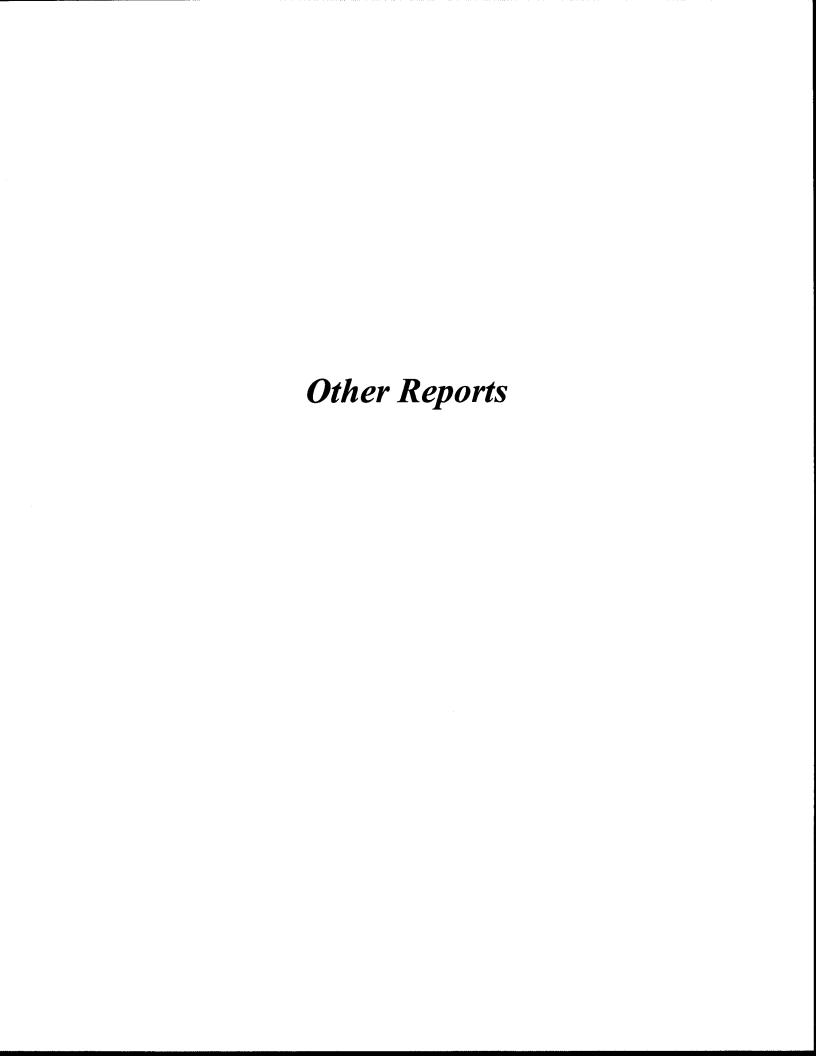

The accompanying notes are an integral part of this schedule.

If CFDA number is not available, include other identifying number.

Note: Include, in either this schedule or the notes to this schedule, the value of the federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at yearend. While not required, it is preferable to present this information in the schedule.

(Add explanatory foototes, such as basis of presentation, basis of valuation, composition of clusters, etc.)

<sup>\*\*</sup>Provide the direct and pass-through federal funds for each component unit.

#### (NAME OF MUNICIPALITY), LOUISIANA

#### Current Year Findings, Recommendations and Corrective Action Plan

| Foi | the | Year | <b>Ended</b> | , 20_ |  |
|-----|-----|------|--------------|-------|--|
|-----|-----|------|--------------|-------|--|

| Section III - N       | Management Letter:                |  |   |                             |
|                       |                                   |  |   |                             |

**Note**: This schedule should be completed at the completion of the audit and include all current audit findings and management letter comments. This includes internal control findings, compliance findings with federal and state laws and regulations, and guestioned costs relative to federal awards.

If management does not agree with the audit findings or believes corrective action is not required, then the corrective action plan should include an explanation and specific reasons.

- 1 Reference numbers the auditor assigns to the audit finding.
- 2 Management should clearly state the actions taken to date or their intended actions. The actions should be listed in detail. For internal control and compliance findings material to federal awards, management should state whether the federal grantor or pass-through entity has been contacted concerning resolution of the matter.
- 3 Name(s) of contact person(s) responsible for corrective action.

| Status of Prior Audit Findings | •    |
|--------------------------------|------|
| For the Year Ended             | , 20 |

| Ref. No.1   | Fiscal Year<br>Finding<br>Initially<br>Occurred | Description of Finding        | Corrective<br>Action Taken<br>(Yes, No, Partially) | Planned Corrective<br>Action/Partial<br>Corrective<br>Action Taken <sup>2&amp;3</sup> |
|-------------|---|-------------------------------|--|---|
| Section I - | Internal Control                                | and Compliance Material to th | e Financial Statements:                            |   |
| Section II  | - Internal Control                              | and Compliance Material to F  | ederal Awards: <sup>4</sup>                        |   |
| Section III | - Management L                                  | Letter:                       |  |   |

**Note**: This summary schedule of prior audit findings should include all prior audit findings and management letter comments. This includes internal control findings, compliance findings with federal and state laws and regulations, and questioned costs relative to federal awards. If no findings have been reported under a specific section, the schedule should so state.

In addition, this summary schedule should include audit findings reported in the prior audit's summary schedule of prior audit findings, except those audit findings listed as corrected or no longer valid or not warranting further action.

- 1 Reference numbers the auditor assigns to the audit finding.
- When audit findings are not corrected or are only partially corrected, the planned corrective action as well as any partial corrective action taken should be described.
- 3 Additional explanation is required when:
  - Corrective action taken is significantly different from corrective action previously reported.
  - Management believes the audit findings are no longer valid or do not warrant further action.
- 4 If a management decision has been issued by a federal or pass-through agency, this should be included.
